The Program in Physical Therapy
2017 US News and World Report Graduate School Rankings; on the list of health graduate programs, Physical Therapy Program ranked 20th. Read more.
OnCore Clinical Trials Management System
All CNC departments will soon begin using OnCore, an enterprise-wide clinical trial management system (CTMS) currently being deployed across the Academic Health Center to give the research community a single, comprehensive system for managing a trial throughout its life cycle.

The goal is that by July 1, no new CNC studies will be entered into the Time and Study Collection System (TASCS). If a study had been entered into TASCS before this date, research teams can continue to use TASCS for that study’s post-award process.

Research teams will soon receive information about training, which will be provided by the Clinical and Translational Science Institute’s OnCore team to anyone in the CNC who needs it.

Read about what to expect during the transition, which is designed to minimize disruption, and leverage best practices from previous, successful implementations.

Questions? Contact your department’s OnCore lead(s):

**UPCOMING EVENTS**

*Turtle Derby*

**Date:** Thursday, June 23, 2016

**Time:** 10:00 am - 1:00 pm

**Location:** Front Lawn, U of M Masonic Children’s Hospital

For 30 years, the Turtle Derby at University of Minnesota Masonic Children’s Hospital has been a popular tradition for patients, families and staff. Attendees can cheer on real turtles from the sidelines, play games, indulge in a turtle sundae and much more.

The fundraiser provides many of the extras that make our children’s hospital a healing place with a heart. Sponsor one or more turtles and watch your reptile compete for the coveted title: The Grandest Turtle of All, 2016.

Registration will be held June 1 - June 14. The cost is $35 for an individual or family; $80 for a work team or department. [Learn more & register.](#)

**NeuroSafe 2016**

*Time Out to Reflect on Quality & Safety in Neurosurgery*

**Date(s):** July 14-16, 2016

**Location:** Oak Ridge Hotel & Conference Center, Chaska, MN

This 2.5 day symposium offers a conversation on how to improve safety and quality in neurosurgery. Achieving positive patient outcomes for all neurosurgical patients will be achieved through interactive case-based presentations, case reviews and discussions.

This symposium is ideal for specialty physicians, physician assistants, nurse practitioners, quality and safety professionals and others with a neurosurgery specialty interest. This includes professionals interested in offering patients the benefit of the most advanced quality & safety treatment options for neurosurgery care. [Learn more & register.](#)
The end of the fiscal year is quickly approaching. A personal holiday is provided to academic, civil service, and labor represented staff employees in lieu of a scheduled “floating” holiday on which the campus is to be closed. This holiday must be taken during the fiscal year between the dates of July 1 and June 30. It cannot be banked or used outside this period or it will be lost. If you have not already used your personal holiday this fiscal year, you will need to do so before June 30, 2016. For further details regarding the personal holiday, please refer to the following:

Eligibility and Guidelines for Use of Personal Holidays for Academic Employees on the Twin Cities Campus

Eligibility and Guidelines for Use of Personal Holidays for Civil Service and Union-Represented Staff Employees on the Twin Cities Campus

To check the status of your personal holiday, go to your MyU Portal and click on the “My Time” tab to view your balance.

If you have questions or concerns please contact: Elsa Stork at ekstork@umn.edu or 612-626-6110

The Health Information Privacy and Compliance office will begin an initiative to retrain employees on HIPAA compliance. An email will be sent out to employees with a refresher course which employees will be required to take. This training will be for employees only.

This initiative is to ensure that the University stays in compliance with Federal HIPAA policies and procedures. The initiative will begin in May and will be completed by the end of summer.

Keep your eye out for your HIPAA training email!

The deadline for departments to submit their Annual Appraisals for ALL full-time faculty is June 30, 2016. The following link may be helpful to complete this process:

Forms & Templates

The Foundations course is endorsed by UMPhysicians’ senior leadership team; UMP’s Compliance and Risk Management Committee included physician attendance as a key component of the FY2016 Risk Management Incentive Program.

If you have any questions about registration, please call 612-626-9296 or email umnhcce@umn.edu.
